Give us a call at 800-568-3949 and ask about our 4-7 gallon Wunderbag Pre-sale!

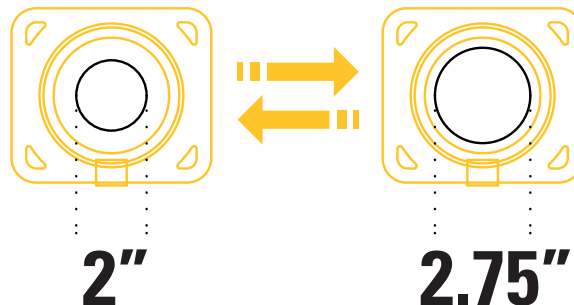

## NEW 4-7 GALLON WUNDERBAG<sup>®</sup>!

You asked for it, so we made it! Introducing the brand new Wunderbag for 4-7 gallon shop vacuums. People love our Wunderbags for their reliable filtration and ability to hold wet and dry contents together. Now, the 4-7 gallon Wunderbag can be used even in smaller shop vacuums.

## WHAT DO WE MEAN "UNIVERSAL SHOP VACUUM BAG?"

Here's the short answer: You can use the Wunderbag Micro Pre-filter with any brand of shop vacuum!

The Wunderbag's flexible gasket stretches from 2 to 2.75 inches in diameter and still creates a tight seal. This means that as long as your vacuum's port is at least 2 inches in diameter, the Wunderbag will fit! If you haven't bought a Dustless Vac, no worries. The Wunderbag will work with your brand of shop vacuum!

Using a vacuum bag in your shop vacuum rather than an empty barrel can dramatically improve job site performance. It's also important to use the right size of shop vacuum bag in your vacuum, which is why Dustless Technologies offers our special line of shop vacuum bags, the Wunderbag in three different sizes: 4-7 gal, 8-10 gal, and 12-18 gal. For more information, visit our website at [dustlesstools.com](http://dustlesstools.com).

## 5 REASONS TO USE A SHOP VACUUM BAG OVER AN EMPTY BARREL

Click the image above and see how much you know about shop vacuum bags. With the release of the new 4-7 gallon size of Wunderbag, we thought it'd be a great time to talk about why to use a shop vacuum bag in the first place. A large number of shop vacuum users never get to experience the advantages of using a Wunderbag because they didn't know that shop vacuum bags even existed! We're here to help with that. Because the Wunderbag can work with almost any vacuum, everyone should have access to these amazing benefits:

**EMPTYING THE VACUUM WITHOUT LIFTING THE BARREL**

**VACUUM CONTENTS ARE HELD TOGETHER**

**YOUR BARREL STAYS CLEAN**

**PROLONG THE LIFE OF YOUR VACUUM**

**IMPROVE YOUR WORKFLOW BY REMOVING DISRUPTIONS**

The 2021 Bipartisan Infrastructure Bill means that over the next few years, 1.2 trillion dollars will be spent on improving America's Infrastructure. When following the standards put forth in the "Buy American Act," this spending gives American manufacturing, steel, and iron preferential treatment. When consumers, retailers, and contractors buy, sell, and purchase products that meet the "Buy American Act," we each do our part in supporting our economic independence.

# BUY AMERICAN ACT Compliant Products List

In our last letter, we talked about the relevance of the Buy American Act and how government spending is required to purchase domestic goods. Now, we'd like to bring you the list of Dustless Technologies products that qualify for the Buy American Act:

ALL LISTED
